For General Debility, from which Ladies frequently suffer, there is not its equal in the whole Materia Medica.

The inventor of this proparation was for three years a completely prostrated from Dyspensia and inactivity of the Liver that he was frequently for weeks at a time unable to raise himself from his bed. He sought aid from physicians at home and in Europe, but in vain, his case was pronounced hopeless by thousands, and it was by accident that he succeeded in caring himself. Since he has been practicing medicine, his success in such cases has been unrivalled. He has been aware of the incredulity of the public, and consehas been aware of the incredulity of the public, and conse-quently said nothing through the press of his own case, until the character of the medicine was fully established by its success, as shown by the certificates which have been dvertised.

HUNTSVILLE, January 12, 1852. Dr. Bledder:—I take the liberty and fell it to Le my duty to recommend to all persons suffering from disease of the stomach and bowels, your Alterative Compound, as a very seperior medicine. My son, aged 15 years, had been under medical treatment about five years for dyspepsia and diarrhea—when having almost despaired of his recovery. I concluded to try your Alterative, two bottles of which, I believe, antirels suped him.

Dr. Blenson:—Some time has classed since I gave a certificate that my wife had been greatly benefited by your Alterative Compound. I now take pleasure in saving to the public, that my wife had for three or four years been subject to the worst kind of spells of cramp in the stomach from dyspepsia. I had tried of several whom I thought to be the best physicians in the place and a great many differen medicines, with momentary relief. Being persuaded to try your alterative compound, I did so—and I am happy to say that it has entirely cured her; and I would conscientiously recommend it to all persons suffering from diseases of the liver and dyspepsia.

HUNRAVILLE, Sept. 29, 1851.

Dr. Blensoz — Having seen the publication of your Alterative Compound, I think it my duty to say to the public, that I had been for years subject to spells of Cramp Colic, in its worst form; that I had tried almost every thing that is given by physicians, and never found any thing that would certainly relieve me, until I tried the above medicine, which has relieved me in every attack in less than an hour.

Da. Blerson: I feel that I should fall short of my duty to you and to those who are afflicted were I not to further recommend your Alterative Compound. It has entirely relieved me, so that I have not had cause to take anything in two months. I can eat anything I want with impunity, and believe my health is as good as it ever is at my advanced age. Should I ever suffer from dyspepsia again I shall be sure to call on you. I am very respectfully your friend.

Physician after Physician had prescribed for me without my receiving any benefit, when I commenced the use of Dr. Blodsoe's Alterative Compound, which cured me soundly, and I recommend it

Dr. Burson—Sir: Judging from the certificates you have already advertised, it will be almost unnecessary for me to add further evidence in regard to the healing virtues of your Compound; but I must say, that for years I suffered a your Compound; but I must say, that for years 1 sunered a great deal from Dyspepsia and enlargement of the spleen, and thought that I never would recover. This was an extreme case of inflammation of the splee of long standing, has a variety of treatment from no less than eight different physicians, without receiving benefit—was cured by the use of only four boildes of the Magnatic Ointent. This was four months ago and the lady (a Mrs. Dunham,) is still in good health, and able to aftend to her usual place. One of them had been afflicted 18 years, the other about 9 years. They had tried the best physicians in the State, without bestell; and one of them had been under the eighteen mouths, and had expended hundreds of dollars in vam efforts to effect a cure. They are now by use of the Magnetic Unitment, nearly or quite cured; and are able to read and attend to any ordinary business. I have used the Ointment in a number of cases of Piles, and in no case has it failed of giving immediate relief and generally a permanent curs. I have also used it beneficially in severe cases of Ery-sipelas. And last but not least, I have within the last year cured four cases of CANCER by the use of the Magnetic Ointment alone!

From a thorough trial of the Ointment in nearly every disease for which it is recommended, I can confidently recommend it to be one of the most useful remedies ever of-

fered to the public. Respectfully Yours, BURTON HUBBELL, M. D. Dated Jan 27, 1850, Amelia, Ohio.

The character of this Ointment, as an efficient remedy, is established in this city. There are quite a number of indi-viduals who ascribe their restoration to health to the use of H. G. SCOVEL, BERRY & DEMOVILLE, CARTWRIGHT & ARMSTRONG.

THIS Mill differs from all others in the construction of the upper or Running Stone, which is composed of French Burr Blocks, enclosed in a cast iron Case, which forms the back and hoop of the Stone with a Cast Iron Eye, or Bush, than is ofgreater external diameter at the bottom that at the top, which is secured to the back by four bolts, so that every block is in the form of a dove tail, which gives greater strength to a Stone than any other method which is required in small mills, where the stone is run with great speed, and becomes dangerous if not strongly made. It also gives any weight to a stone of small diameter that is required without having it thick or high, that makes it top heavy.

This mill is a square frame made of wood or castiron, in the form of a busk, with Bridge-tree, Spindle Balance, Ring Driver, and Regulating Screw, and ginds uron the same principle as a large mill, differing only in the Runner shose; this being of great weight enables it to grand nearer the center agreeter quantity of grain with less power than any other mill now in use. The thirty inch mill, if put to its fullest speed, will grind from ten to fifteen bushels per hour.

These mills are warranted to be in every respect as recommended.
